LINKEDIN.COM

I have started my IT career in 2019 after successfully graduating from RS School with JavaScript. Immediately after the course I was hired by EPAM and worked there until March 2023. I like to write clean and maintainable code, as well as being attentive to detail.

## SKILLS & ABILITIES

First framework was React Native. Along with this technology, I use Redux, Thunk, Redux-Saga, Redux Toolkit, TypeScript, GraphQL (Apollo Client). For test coverage JEST, React Native Test Library. Then had the opportunity to learn and work with Dart / Flutter. Flutter stack: Bloc + Cubit patterns, DI (dependency injection), Clean Architecture, GraphQL, Freezed, Rx Dart.

## EXPERIENCE

2023 – now

**Oct-2023 - Mar-2024:** Software developer

**Project:** FAQTrip

**Project Description:** Application for travelers that helps to determine the best routes, suggests interesting places and gives other recommendations.

**Team Size:** Dev: 1 - 3; QA: 1; Graphic Designer: 1 – 3; AI – engineer: 2; PM: 1.

**Responsibilities:** Participated in the development of pages, features, packages.

**Tools and Technologies:** Windows, Android Studio, VS Code, Figma, Flutter, Bloc, Clean Architecture, Firebase.

2019 – 2023,

EPAM Systems, Inc

**Dec-2022 - Feb-2023:** Contribution Software developer

**Customer:** EPAM Systems, Inc

**Project Description:** A project to develop applications for the company's employees to enable them to use the company's services and benefits.

**Team Size:** Dev: 3-6; QA: 2; BA: 1; Graphic Designer: 1.

**Responsibilities:** Applied architectural solutions, developed full-cycle BE + FE features, developed individual pages and modules

**Tools and Technologies:** MAC OS, XCode, Android Studio, VS Code, Postman, Studio 3T, Figma, Flipper, JavaScript, React Native, Redux-Saga, Redux Toolkit, MongoDB, NodeJS.

### **Jul-2022 - Oct-2022: FE Software developer**

**Customer (domain):** Life Sciences & Healthcare

**Project Description:** An application for a network of pharmacies in which you can directly receive consultations from doctors and also add a group of trusted persons who will help to monitor the user's health.

**Team Size:** Dev: 3; QA: 2; Scrum Master: 1; Product Owner: 1.

**Responsibilities:** Developed ui interfaces, individual pages and modules

**Tools and Technologies:** MAC OS, XCode, Android Studio, VSCode, Postman, Figma, TypeScript, React Native, GraphQL (Apollo Client), JEST

### **Jan-2021 - May-2022: FE Software developer**

**Customer (domain):** Telecom

**Project Description:** I entered the project as a React Native developer - the application had to provide customers with the ability to order and activate SIM cards, as well as perform some transactions with their accounts. I worked from January to April.

Next, the customer wanted to test Flutter to evaluate the capabilities of the framework and compare it with RN. The goal was to rewrite the main native application to one of these frameworks. So from mid-April we worked on POC applications on Flutter and studied this framework. Flutter won!) And then I worked with Flutter for about a year on a mobile and internet communication application (working with tariffs, accounts, SIM cards, other communication services and an online shop).

**Team Size:** Dev: 2-12; QA: 1-2; Scrum Master: 1; Solution Architect: 1; Product Owner: 1.

**Responsibilities:**

React Native: Participated in the development of pages, features with test coverage

Flutter: Wrote POC applications, developed individual pages of a production application, developed a text parsing package for the entire application (50+ developers)

**Tools and Technologies:** MAC OS, XCode, Android Studio, VS Code, Postman, Figma, TypeScript, React Native, Redux-Saga, JEST; Dart, Flutter, Bloc + Cubit patterns, Dependency injection, Clean Architecture, GraphQL.

### **Aug-2019 - Nov-2020: Junior Software Developer**

**Customer:** EPAM Systems, Inc

**Project Description:** wearecommunity.io

**Team Size:** Dev: 2-6; QA: 2-3; BA: 2; Graphic Designer: 1, PM: 1.

**Responsibilities:** Participated in the development of pages, features with test coverage

**Tools and Technologies:** Windows, MAC OS, XCode, Android Studio, VS Code, JavaScript, TypeScript, React Native, Redux, Thunk, JEST.

## EDUCATION

2024	System Analyst - Belhard
2024	SQL on Stepik platform
2019	RS School – Java Script
2018	UX/UI
2008 - 2014	Belarusian State University of Informatics and Radioelectronics (BSUIR) System Engineer
